HOLT AND COUNTY DADS MAY SCRAP

Prospect Of Row Ove Road Laborers' Taxes

The matter of the collection of de linquent personal and poll tax from he laborers of the road and garba departments promises to precipitat a beautiful row between Tax Assess James L. Holt on one side and th County Supervisors and Road Supe visor Sam Johnson on the other sid before it is settled.

Tax Assessor Holt stated this mor ing that he is preparing garnishs summonses to be served on the roa laborers who are delinquent. The re about 150 of these. The road d partment employs at times as may as 300 laborers. Of these possibly are members of the National Gua and are therefore exempt from payle the tax. Few of the others have pa up, and Holt intends to go after the end collect the money by process

If the money is collected rishment of wages, each labor garnisheed will have to pay near twice as much as the actual amou of the tax. The tax became delinque at the end of last March and the pe alty added to the original \$5 mal the amount \$5.60. Added to this about ten cents interest, while the co of garnishment will bring the total to about \$9.85. As the average ount received by the men each pay day for two weeks is frequently not over \$9 or \$10, it is obvious that this manner of collection is going to work a severe hardship on the delinquents

Holt says he hardly has the heart to take the money, but lays all the blame of the necessity for garnishing the wages of the men on the Su pervisors of the County.

He says that early in January he took the matter up with them and proposed that the head of the road epartment himself collect the money in installments, turning over the total to the Assessor after it was all colccted. But the Supervisors have taken no action in the matter beyond writing a letter saying that the plat proposed had received their favorable onsideration.

A couple of weeks ago two collec-Johnson's office when the men were being paid off, with the idea of collecting from each man as he was paid the full amount of his delinquency But when they saw the small amounts received by the men, the collectors vent back without collecting a cent, and reported that they did not have the heart to take \$5.60 from the pay

Holt this morning, when asked why allments, as was done last year, said e had no time to bother with such a method of collecting. If any such Road Supervisors, acting under the instructions of the Board of Supervisors o collect the money and turn it over who the men are, "he said. "I'an willing to pay Mr. Cummius the reg BEST QUALITY. ular per centage paid all our collecfor his extra work. But the Supervisors refuse or neglect to see that the collections are made, so the only thing left for me to do is to issue gar onses. I don't want to do that, for it will mean that the men will have to pay nearly twice the can do, and I am going to garnished very man of the road department who is delinquent. The papers are eing made out now."

"It is nothing but a game of polities," was the way Road Supervisor Sam Johnson characterized the proposition of the Tax Assessor. "I am not the tax collector, and it is none of my business to collect taxes for the Assessor. There is a nigger in the coodpile and Holt knows where he is.

"What they want to do is to get me to stand at the window and take out one dollar or two dollars every week from the envelopes of the men and turn it over to them. Then, when a man has had a couple of dollars taken from him, he will go away and get a Sam Johnson took two dollars of my oney,' he will say.

Why can't the Assessor use the upon system as he did last year, and ollect a dollar a week from each mar until the tax is paid. It is not true that this department collected the noney for the tax office last year. The ax collectors did it themselves. One of my men did help them, but the department had nothing to do with it And the department is not going to

collect the money for them this year "If Holt will not collect the taxes answer. on the installment plan, he will have to garnishee the wages of the men." And that is how the matter stands now. Meantime, the poor road la borers, who can't afford to pay more than half of their weekly wage at a ime are liable to have to suffer for it In connection with the collection of

has been making the Japanese fisher-nien come through is interesting. Most of them have refused for two years to pay the tax. Recently Holt gave h's deputies orders to go down to the waterfront and attach the sampans of the fishermen. When a Japanese who was delinquent in his taxes arrived at the wharf with his load of fish deputy stepped down, grabbed the chain of the boat and pad-locked it to the wharf, where it was held until the

owner came through. Some of the Japanese got wise to ne situation and stopped coming ir ne did not collect the money in in- at all. They would transfer their fist to other sampans outside the harbor get their provisions in the same way nethod were adopted, it was up to the fisherman can not remain at sea always in a sampan, and gradually they were obliged to come in. When they did they found Pete Baron, who is waterfront collector for the Assessor waiting for them, ready to tie their sampans up until the taxes were paid

here on the liner Korea from the Orient, is now connected with the iminigration service at the port of San Francisco. This news was received it a letter sent down here to a friend Pechtel was at one time in charge of the local immigration station. He resigned the position and went to Japan to enter the services of the Pacific Mail Company at the Yokohama office He passed through here not very long ago, and while here married Mrs Stackable, the former wife of the Collector of Customs.
